

MODERN LANGUAGES SPEAKER SERIES

FREE PUBLIC TALKS

Dr. Inge Genee
(Department of Modern
Languages) presents

**Blackfoot Language
Resources and Digital
Dictionary: Project
update**

**Wednesday,
March 29, 2017
12 – 1pm
UHall B756**

In this talk I will give an update on the Blackfoot Language Resources and Digital Dictionary project.

I will show some of the progress that has been made in the past year due to the help of a fantastic group of dedicated Blackfoot speakers, research assistants, students and volunteers. The dictionary is now mostly functional and is starting to be enhanced with pictures, audio, video and other content. The website also contains pages with references to other language resources; grammar pages and a story archive are in the works.

I will also show the Algonquian Linguistic Atlas project, a website that collects a large database of comparative data for all Algonquian languages. Two Blackfoot dialects are now represented on this Atlas, and more will be coming soon.
