

**APPLICATION – MATH AND STATS HELP SESSIONS TUTOR****Department of Mathematics & Computer Science****Student Success Centre**

**Applicants must submit a resume and this completed document** to the Student Success Centre (AH148) or by email to tutoring.services@uleth.ca no later than Friday, April 6 at 4:30 PM.

**Position description:**

Help Sessions tutors will work one-on-one with students to help them with concepts, homework problems, and exam preparation for a wide variety of undergraduate mathematics and statistics courses. Each tutor will work between two and four two-hour shifts per week. Shifts will likely be from 6:00 PM to 8:00 PM on weekdays. Compensation will be \$20.40 per hour.

**Necessary qualifications for applicants:**

- Applicants must be registered U of L undergraduate or graduate students in the Fall 2018 semester. Please do not apply if you will not be a student in the Fall 2018 semester.
- The Help Sessions will run Mondays through Thursdays from 6:00 PM to 8:00 PM. Applicants must be available to work at least two of these two-hour shifts per week.
- Applicants must have taken and passed the following courses (or equivalent courses from other universities): Math 1410, 1560, 2000, 2560, Stat 1770. Experience in 3000- and 4000- level mathematics courses is an asset but is not strictly required.
- Tutors must have strong mathematical problem-solving abilities but are not required to be mathematics majors.

**Personal Information:**

Name: (first) \_\_\_\_\_ (last) \_\_\_\_\_

E-mail: \_\_\_\_\_

Citizenship:  Canadian  Landed Immigrant  International

International students: Study visa expiry date \_\_\_\_\_  
SIN card expiry date \_\_\_\_\_

**Position Information:**

In the space provided, list all mathematics and statistics courses you have taken and the grade you received in each course (e.g. MATH 1560 (A+)). **Circle the courses you feel confident tutoring.** If you took a course at a different university, indicate the name of the university, the course you took there, the grade you received in that university's course, and the U of L course most similar to that university's course (e.g. If you took MATH 100 at the U of A and feel it is equivalent to MATH 1560 at the U of L, write "MATH 100 at U of A (<your letter grade>), equivalent to MATH 1560 at U of L." If you also feel confident tutoring MATH 1560, then circle "MATH 1560"). If you have taken courses from other departments that you feel are relevant, please list them in the "Other" section along with your grade from that course (e.g. PHYS 3800 (A-)). If a course you took from another department makes you comfortable tutoring a mathematics or statistics course, indicate this in the "Other" section. (e.g. If you feel you can tutor MATH 3560 because you took PHYS 3800, write "PHYS 3800 (<your letter grade>), similar to MATH 3560", then circle "MATH 3560".)
