ETHICS WORKSHOP

Issues Encountered When Working with the Young

Join us on
Wednesday, October 22nd
3:00 PM
C450

Please join members of the I-CYS team for a workshop on the issues that are encountered when working with the young. This workshop will be of interest to anyone who is working with children or youth. We plan on sharing and discussing the ways in which we approach ethics from our various interdisciplinary and methodological perspectives. It will be a great opportunity to get feedback and ask questions.

Everyone welcome!

Little Albert, who was the subject of a classical conditioning experiment at 8 months of age.
