

PARTICIPANTS NEEDED FOR RESEARCH IN USING LEGO TO IMPROVE INTRA-GROUP COMMUNICATION

Do you want to get paid to play with Lego? Here's your opportunity!

We are looking for volunteers to take part in a study on how Lego can be used to facilitate group communication while problem solving.

To participate in this study, you will attend **one** of the Lego® Serious Play® workshops running in September.

In the workshops, participants will receive an introduction to the Lego® Serious Play® method from Dr. Stephen Dann, who is a certified Lego® Serious Play® facilitator. Over the course of the workshop, you will play with Legos both independently and collaboratively to track the effectiveness of the Lego® Serious Play® method in assisting you to explain your own creative solution to a hypothetical problem. The sessions will be both video and audio recorded.

Each session will last approximately 2.5-3.0 hours. In appreciation for your time, you will receive an opportunity to learn about the world of Lego® Serious Play®, eat provided snacks, and **receive a payment of \$15.00**

You can register for the sessions at: <https://legostudy2018.eventbrite.ca>

For more information about this study, or to volunteer for this study,
