

What do patients have to do with research?

The Patient-Oriented Research Training Program explores what it means for research to be patient-oriented. Each month, **free introductory workshops** are available for anyone who wants to learn. Upcoming sessions:

Wednesday October 5, 2016

Closing the Gap: Knowledge Translation and Patient-Oriented Research

Wednesday November 2, 2016

Accessing Healthcare Data in Alberta

Wednesday November 30, 2016

Being a Trailblazer in Patient-Oriented Research: Challenges and Rewards

All sessions take place from 4:30 to 6:00 pm MT. Attend in-person at the University of Alberta, University of Calgary, or University of Lethbridge, or join us online.
