About the Major in Canadian Studies	The major in Canadian Studies offers students the opportunity to concentrate their studies on facets of the Canadian national experience such as history, economics, geography, government and politics, sociology, literature, and aboriginal culture. In the process of completing their requirements, students will obtain a better understanding and appreciation of Canada and its complex regional character. Students will also have the opportunity to study complex issues such as bilingualism and biculturalism and examine their relevance to modern multicultural Canada
Canadian Studies Courses	Canadian Studies students complete a variety of courses from a number of disciplines that provide a broad understanding of Canada. The major includes courses in

Co-operative Education in the Humanities and Social Sciences	A Co-op option, requiring three work terms, is available. Students interested in the Co-operative Education/Internship program should contact the Coordinator of Co-operative Education in the Career Resources Centre (AH154   phone: 403-382-7154) for further information.

#### **Choosing an Education** The Faculty of Education offers 11 different majors that correspond to teaching subjects in Alberta schools (see p. 161 in the 2013/2014 University of Lethbridge Calendar for a listing). In Maior highly competitive teaching majors, the GPA for admission may be above the minimum requirements. **Choosing Courses Outside** Students sometimes find that their initial objective to teach only at the elementary level or only the Major at the secondary school level is later modified-or even completely changed. Students are therefore encouraged to select courses that will prepare them for teaching in a variety of situations. Moreover, students should select courses that not only provide breadth and richness for the classroom but also provide the basis for the development of a teaching minor or specialization. The Faculty of Education offers 18 minors (see p. 166 in the 2013/2014 University of Lethbridge **Choosing an Education** Minor Calendar for a listing). A minor consists of five non-Education courses (excluding those used in the major) and one curriculum and instruction Education course (to be completed after admission to the Faculty of Education). Students may use the same courses to fulfill the minor and the General Liberal Education Requirement (GLER).

This is a planning guide and not a graduation check or guarantee of course offerings. You should have a program check done in your final year of studies. Students are responsible for the accuracy of their own programs. The guide should be used in conjunction with the University of Lethbridge Calendar, which is the final authority on all questions regarding program requirements and academic regulations. Choosing an Education Specialization	The Faculty of Education offers two specializations: • Special/Inclusive Education • Technology in Education The specializations consist of four courses and corresponding Professional Semester III focus.
Advantages of Completing a Minor and/or Specialization	Completing a minor and/or a specialization allows students to develop expertise in a second area of teaching and be more versatile and marketable as a graduating teacher. For more information, see the 2013/2014 University of Lethbridge Calendar, Part 8 - Education, Sections 7. Education Minors (p. 166) and 8. Education Specializations (p. 170).
Where to Get Help	Students may contact an Academic Advisor in Student Program Services in the Faculty of Education (email: edu.sps@uleth.ca   phone: 403-329-2254) or in the Faculty of Arts and Science (email: artsci.advising@uleth.ca phone: 403-329-5106).
Program Requirements	The B.A./B.Ed. combined degrees program with a major in Canadian Studies/Social Studies Education requires a minimum of 30 courses in Arts and Science and 20 in Education. A minimum of 16 courses are required in the major.
Transfer Credit	Remember that you may use both University of Lethbridge credit and credit transferred from another college o university to meet degree and major requirements. Transfer credit may be either specified or unspecified. Specified credit is indicated on your transcript by the subject name and the specific number of the course, e.g., History 1000, English 2000, etc. Unspecified credit (1XXX, 2XXX, etc.) is indicated by the subject name and leve of the course in parentheses, e.g., History (1000 level), English (2000 level), etc.
Unspecified Course Credit	Unspecified course credit means that the University of Lethbridge does not offer the same course you transferrer in, but we recognize it and treat it as a regular course. An unspecified course would count as one of your maximum of 17 from one discipline, but it could not meet a specific course requirement. For example, if English 2000 is required in your program, you could not use English (2000 level) to fulfill that requirement. Students with unspecified transfer credit need to consult an Academic Advisor to establish how the transfer credit fits in the degree program. This should be done as soon as possible after transfer credit is awarded.

## **Terms Used**

**GLER course:** A course that could count toward the General Liberal Education Requirement. You may use courses in your major towards this 12-course requirement. See the 2013/2014 University of Lethbridge Calendar, Part 4 - Academic Regulations (p. 88) for complete information.

The Faculty of Arts and Science offers Liberal Education 1000 and 2000, specifically designed to introduce first-year students to the wide scope of human knowledge and teach essential university success skills, critical thinking, and integrative thinking (see the 2013/2014 University of Lethbridge Calendar, Part 14 -Courses, p. 307). LBED 1000 and 2000 may be used toward satisfying the GLER.

**Elective:** A course that you may choose freely from all those available and applicable to your program. Use courses inside or outside your major, bearing in mind any restrictions that may apply (e.g., a maximum of 17 courses from any one discipline).
