Faculty: Management

Admission

Admission to the Bachelor of Management Second Degree program in the Faculty of Management occurs following completion of an approved degree, other than the degree B.Comm. or its equivalent, and a minimum grade point average of 2.0 (based on a 4.0 scale) on the last 20 graded university-level semester courses is required. An approved degree is a baccalaureate degree (with 30 courses or more), or its academic equivalent, from a recognized degree-granting institution. Other three-year International baccalaureate degrees or Applied Degrees may be considered a basis for admission to second degree programs with the prior approval of the Dean of the Faculty of Management.

Program Requirements

Second degree programs consist of the Arts and Science and Management courses required for the chosen major. Upon admission, an advisor in the Faculty of Management's Undergraduate Programs Office will review your previous educational background and design a program tailored for you. You will then receive notification of the courses required including the approval of advance credit or course waivers. Consult the University Calendar and Timetables for complete course information. Note that, depending upon previous educational background and chosen major, a Bachelor of Management as a Second Degree may require more than four semesters to complete. You may opt to take Summer Session courses which may reduce the overall length of time required to complete the degree program.

About Management Minors

The Faculty of Management offers minors in First Nations' Governance, Information Systems, International Management, New Media, Social Responsibility, and Supply Chain Management. In some cases, achievement of the minor and a chosen major will require a student to take extra courses. Students may not declare a minor in the same subject as their major. For students who complete all the requirements, the minor will be acknowledged on the official transcript (see Part 11 - Faculty of Management in the UofL Calendar or the Minor Program Planning Guides available online at www.uleth.ca/ross/program-planning).

Residence Requirement

A minimum of 15 courses (45.0 credit hours) extra to the first degree, including ten 3000/4000-level Management courses, must be completed at the University of Lethbridge.

Program Length

A second degree program may be up to a maximum of 25 courses (75.0 credit hours) in length. Courses completed as part of a first degree may be used as advance credit in the Bachelor of Management as a second degree. Other program requirements may be waived in order to remain within the 25-course maximum. Such waivers will be decided at the time of admission by the Undergraduate Programs Office.
