This is a planning guide and not a graduation check or guarantee of course offerings. You should have a program check done in your final year of studies. Students are responsible for the accuracy of their own programs. The guide should be used in conjunction with the University of Lethbridge Calendar, which is the final authority on all questions regarding program requirements and academic regulations. Contact an Academic Advisor in the Faculty of Arts and Science for advising information.

Bachelor of Science - Environmental Science

Calendar Year - 2014/2015

N a m e :	ID:	
B.Sc. Environmental Science Completion of at least 40 courses (120.0 credit hours) with a grade po	pint average of at least 2.00.	
Major Requirements (25 courses)		
Biology 1010 - Cellular Basis of Life Biology 1020 - Diversity of Life Biology 2000 - Principles of Genetics Biology 2200 - Principles of Ecology Biology 3300 - Evolution	Two of: Mathematics 1410 - Elementary Linear Algebra Mathematics 1560 - Calculus I Statistics 1770 - Introduction to Probability and Statistics	
Chemistry 1000 - General Chemistry I Chemistry 2000 - General Chemistry II Environmental Science 2000 - Fundamentals of Environmental Science Environmental Science 4000 - Selected Studies in Environmental Science II (Series)	One of: Biology 3630 - Field Biology Geography 3710 - Field Techniques in the Earth Sciences Geography 3792 - Field Excursion in Physical Geography (Series ² An approved field course	
Geography 1000 - Introduction to Physical Geography Geography 2030 - Geomorphology Geography 2300 - Weather and Climate Geography 2700 - Geographical Data and Analysis Geography 2735 - Introduction to Geographical Information Science	Three courses (9.0 credit hours) from Biology List 2 (Organismal Biology) and List 3 (Ecology and Evolutionary Biology) of which two must be lab-base (see the 2014/2015 Calendar, Part 7, Section 15.h., p. 116, for Biology lists). Some Topics courses in Biology may also qualify. 1	
Three of: Geography 2090 - Biogeography Geography 3035 - Fluvial Geomorphology Geography 3060 - Glaciology and Glacial Geomorphology Geography 3080 - Soils	2 3One Independent Study or Applied Study at the 3000/4000 level in Environmental Science Technical Studies Semester (5 courses) Environmental Science 2000 unspecified Environmental Science 2000 unspecified Environmental Science 2000 unspecified Environmental Science 3000 unspecified Environmental Science 3000 unspecified Environmental Science 3000 unspecified	
Geography 3300 - Microclimatology Geography 3400 - Hydrology I Geography 3720 - Remote Sensing Geography 3740 - Geographical Information Systems Geography 3780 - Field Research in Geography Geography 4400 - Hydrology II Geography 4415 - Integrated Watershed Management		
 Geography 4730 - Spatial Statistics Geography 4750 - Glacial Processes, Measurements, and Models Geology 2060 - Physical Geology 	0ther Courses (minimum 10 courses) 1 6	
One of: Chemistry 2410 - Analytical Chemistry I Chemistry 2500 - Organic Chemistry I	2 7 3 8 4 9	
Notes	5 10	

Students may not receive credit for courses at the University of Lethbridge for which close equivalents have been taken at Lethbridge College, and vice versa. Students must ensure that their course selection has been approved by the Coordinator of Environmental Science.

Students should consider including an introductory Physics course (Physics 1050 - Introduction to Biophysics is recommended) as an elective in their degree program. Many other courses offered by the Faculty of Arts and Science complement an Environmental Science focus. Consult the Coordinator of Environmental Science for further information.

Sample Sequencing Plan

Shown below is a sample sequence of courses for your degree. If you follow this plan, you should be able to graduate in four years, provided you complete five courses per semester. This is just one example of how you could complete your major and degree requirements; you may find that a different sequence works as well as this one.

Year 1, Fall

Biology 1020 Chemistry 1000 Geography 1000 One of: Mathematics 1410, Mathematics 1560, or

Mathematics 1560 Statistics 1770 GLER course

Year 2, Fall

Biology 2200 Chemistry 2410 or Chemistry 2500 Geography 2030 Geography 2300 GLER course

Year 3, Fall

Biology List 2 or List 3 course (labbased)

Geography or Geology 3000/ 4000-level list course

Field course GLER course GLER course

Year 4, Fall

Biology List 2 or List 3 course (labbased)
Environmental Science 4000²
Geography or Geology 3000/ 4000-level list course GLER course 3000/4000 level

Year 1, Spring

Biology 1010 Chemistry 2000

Environmental Science 2000

Geography 2735

One of: Mathematics 1410, Mathematics 1560, or Statistics 1770

Year 2, Spring

Biology 2000 Geography 2700

Geography or Geology list course

GLER course GLER course

Year 3, Spring

Technical Studies Semester¹(15.0 credit hours)

Students will receive credit for the following (upon successful completion and receipt of transcript):

- 2 Environmental Science 3000level courses
- 3 Environmental Science 2000level courses

Year 4, Spring

Biology 3300

Biology List 2 or List 3 course Independent Study or Applied Study 3000/4000 level GLER course 3000/4000 level Elective 3000/4000 level

Elective 3000/4000 level

Note: Students must complete Biology 1010, Biology 1020, Biology 2000, Biology 2200, Chemistry 1000, and Chemistry 2000 by the end of Year Two to be eligible to undertake the required Technical Studies Semester in Year Three. Since spaces are limited, students lacking this necessary background may be deemed ineligible for the assigned Technical Studies Semester and required to change to another major.

Terms Used

GLER course: A course that could count toward the General Liberal Education Requirement. You may use courses in your major towards this 12-course requirement. See the 2014/2015 University of Lethbridge Calendar, Part 4 - Academic Regulations (p. 88) for complete information.

The Faculty of Arts and Science offers Liberal Education 1000 and 2000, specifically designed to introduce first-year students to the wide scope of human knowledge and teach essential university success skills, critical thinking, and integrative thinking (see the 2014/2015 University of Lethbridge Calendar, Part 14 - Courses, p. 315). LBED 1000 and 2000 may be used toward satisfying the GLER.

Elective: A course that you may choose freely from all those available and applicable to your program. Use courses inside or outside your major, bearing in mind any restrictions that may apply (e.g., a maximum of 24 courses from any one discipline).

If the Technical Studies Semester is undertaken in Fall, Year Three, students should follow the Fall, Year Three sequence in Spring, Year Three.

² Semester of offering may vary.
