

PIMS Distinguished Public Lecture

University of
Lethbridge

Join **Professor M. Ram Murty**, Department of Mathematics, Queen's University, as he explores

Measurements, Mathematics and Information Technology

In this talk, we will highlight the importance of measurement, and discuss what can and cannot be measured. Focusing on the measurement of position, importance, and shape, we will illustrate by discussing the mathematics behind GPS, Google and laser surgery. The talk will be accessible to a wide audience.

Friday, May 8, 2015 | 5:00-6:00 pm
ALBERTA MATHEMATICS DIALOGUE 2015
PE 250, University of Lethbridge

This event is free and open to the public.
