

# Shift Worker Support

**If you are one of the millions of workers who work at times other than those between 7:00 a.m. and 6:00 p.m., then you know first-hand the challenge of fighting the body's natural wake-sleep pattern, and the strain shift work can put on your health, well-being, family, and social life. We help you find solutions to your unique challenges.**

## **Stay healthy and safe while working shifts!**

- **Not getting enough sleep?** We might be able to help

because sometimes making small changes can make a big difference.

- **Stressed out trying to manage family and social life?** We help you develop strategies to help manage your responsibilities and your health.
- **Frustrated family members?** If you are looking for ways to keep your family relationships harmonious, we can offer suggestions.
- **Are you a woman working shifts and caring for a family?** Female shift workers have almost three times the number of accidents as male shift workers. We can help you stay safe... and sane.
