Fall 2016 - Biological Sciences <u>Proposed</u> Course Offerings*		
BIOL 1010	**A**	Cellular Basis of Life
BIOL 1020	A	Diversity of Life
BIOL 1850	A	Introduction to Biology for Non-Majors
BIOL 2000	A	Principles of Genetics
BIOL 2200	A	Principles of Ecology
BIOL 3000	A	Gene Expression and Regulation
BIOL 3105	A	Signal Transduction
BIOL 3210	A	Experimental Methods in Molecular and Cellular Biology
BIOL 3420	A	Animal Physiology
BIOL 3700	A	Ecosystem and Community Ecology
BIOL 3710	A	Population Biology
BIOL 3850	A	Plant Breeding and Genetics
BIOL 3850	B	TBA
BIOL 4110	A	Advances in Genetics, Molecular & Cellular
BIOL 4130	A	Genomics & Biotechnology
BIOL 5500	A	Graduate Seminar Series: Advances in Biological Sciences
Biol 7500	A	Graduate Seminar Series: Advances in Biological Sciences
Envs 4000	A	River Science
Envs 5000	A	River Science

Spring 2017 - Biological Sciences <u>Proposed</u> Course Offerings*

BIOL 1010	A	Cellular Basis of Life
BIOL 1020	A	Diversity of Life
BIOL 1850	A	Introduction to Biology for Non-Majors
BIOL 2000	A	Principles of Genetics
BIOL 3000	A	Gene Expression and Regulation
BIOL 3005	A	Genome Maintenance
BIOL 3105	A	Signal Transduction
BIOL 3115	A	Principles of Cell Growth
BIOL 3300	A	Evolution
BIOL 3310	A	Developmental Biology
BIOL 3400	A	Principles of Microbiology
BIOL 3460	A	Plant Physiology
BIOL 3520	A	Invertebrate Zoology
BIOL 3800	A	Aquatic Ecosystems
BIOL 3850	A	Aquatic Health
BIOL 4100	A	Advances in Agricultural Biotechnology
BIOL 4110	A	Advances in Genetics, Molecular and Cellular Biology
BIOL 4200	A	Techniques in Molecular Biology
BIOL 4230	A	Molecular and Cellular Biology of Cancer
BIOL 4420	A	Environmental Physiology
BIOL 4500	A	Seminars in Biological Sciences

BIOL 4710	A	Evolutionary and Ecological Modelling
BIOL 5010/7010	A	Epigenetics in Health & Disease
ENVS 2000	A	Fundamentals of Environmental Science

*Course offerings may change prior to registration for Fall 2016/Spring 2017 semesters.
Course offerings will not be finalized for 2016/17 for several months.
