

DEPARTMENT OF PHYSICS & ASTRONOMY SPEAKER SERIES

University of
Lethbridge

2019 TALK SCHEDULE

Thurs, February 28 | 1:40-2:55 PM | D632

ADAM CHRISTIANSEN

University of Lethbridge

A frequency-modulated laser interferometer for nanometer-scale position sensing at cryogenic temperatures

Thurs, March 7 | 1:40-2:55 PM | D632

STANIMIR METCHEV (CAP Lecture)

University of Western Ontario

The best extrasolar planets

Thurs, March 14 | 1:40-2:55 PM | D632

PRAIRIE UNIVERSITIES PHYSICS SEMINAR SERIES

ROBERT GREEN

University of Saskatchewan

Resonant X-ray Studies of Quantum Materials at the Canadian Light Source

Thurs, March 21 | 1:40-2:55 PM | D632

PRAIRIE UNIVERSITIES PHYSICS SEMINAR SERIES

ALEX MOEWES

University of Saskatchewan

Direct Measurements of Energy Levels in Next Generation Nitride Phosphors

Thurs, March 28 | 1:40-2:55 PM | D632

PRAIRIE UNIVERSITIES PHYSICS SEMINAR SERIES

GWEN GRINYER

University of Regina

Decays of rare isotopes: from the precision frontier to the limits stability

Thurs, April 4 | 1:40-2:55 PM | D632

VASIL TODORINOV

University of Lethbridge

Minimum length and the fuzziness of spacetime
