Maxxam Analytics is looking for a

LABORATORY TECHNICIAN COOP (Calgary, AB ENVIRONMENTAL)

Join our talented team of experts in the scientific field to advance your technical knowledge and advance your career. Every day we go above and beyond to deliver innovative solutions to help our clients make important decisions that directly impact the community and the environment.

Description:

- Perform sample preparation and general support in the analysis of samples. Some roles may involve the analysis of environmental soil and water samples via instrumentation including gas and ion chromatography, spectrophotometers or manual meters.
- Work towards gaining full knowledge with respect to performing analytical procedures and assigned tasks with related quality control techniques
- Know and strictly adhere to all Quality Assurance and safety procedures as defined by Maxxam Analytics
- Participates in building a strong team of analytical professionals

Job Requirements**Ideal candidate will have:**

- Lab experience is an asset but not required
- Must be currently enrolled in a Chemistry/Biotechnology or other Science related post-grad College/University program
- A positive can-do attitude and proven ability to take initiative
- Solid problem solving skills, effective communication skills, analytical mindset, and attention to detail
- Ability to work independently and in a team environment
- The job incumbent must be available for shift work, working on weekends and overtime
- Coop term is from May to December

Maxxam is the Canadian market leader in analytical services and solutions to the energy, environmental, food and DNA industries and a member of the Bureau Veritas Group of companies – a world leader in testing, inspection and certification services. We support critical decisions made by our customers through the application of rigorous science and the knowledge and expertise of our over 2500 employees. Our annual Corporate Responsibility Report outlines our efforts to continually improve our business performance and practices. Its publication is an industry first and an integral part of our commitment to success with responsibility.
