Welcome to the Dhillon School of Business Living Learning Community 2019 - 2020

At the Dhillon School of Business,
our focus is on the future, particularly yours.

To thrive in an interconnected world of increasing change, our priority at the Dhillon School of Business is to help our students develop forward leaning skills such as creative problem-solving, critical-thinking and social intelligence. We do this through a more personalized approach to education built on active and experiential learning, professional development and exposure to emerging technology.

It's a very exciting time to be part of the Dhillon School of Business. With the support of our benefactor, Mr. Bob Dhillon, our school is moving forward, creating new and innovative learning opportunities at both our Lethbridge and Calgary campuses. The Dhillon School of Business is also thrilled to be part of the six per cent of all business schools worldwide currently accredited by AACSB.

We are a school on the move. As I begin my first term as dean, I am very excited for our school to continue pushing the boundary of learning opportunities available to all students and the community.
