PIMS Distinguished Speakers Series

Pacific Institute for the Mathematical Sciences

The Department of Mathematics and Computer Science is pleased to welcome the following distinguished speakers to campus as part of the PIMS-sponsored Distinguished Speakers Series 2019-2020. Each brings a wealth of knowledge to their respective research focus and are considered among the best of their areas.

TONY WARE
University of Calgary
October 18, 2019

Applied Mathematics,
Math Finance

KAREN MEAGHER
University of Regina
February 28, 2020

Combinatorics,
Graph Theory

GEORGE LABAHN
University of Waterloo
November 19, 2019

Computational Mathematics

MONICA NEVINS
University of Ottawa
March 27, 2020
(rescheduled from Feb 28)

Representation Theory,
Cryptography

BEN ADCOCK
Simon Fraser University
November 22, 2019

Numerical Analysis,
Mathematics of Data

ZACHARY FRIGGSTAD
University of Alberta
November 29, 2019

Combinatorial Optimization

MARNI MISHNA
Simon Fraser University
Date: To be confirmed

Applied Analytic
Combinatorics
