

STUDENT SEMINAR

Math & Computer Science and Physics

Some refreshments!

AN INTRODUCTION TO THEORETICAL PHYSICS

Abstract: What theoretical physics is all about, what theoretical physicists do, what some of the most important unanswered questions about our universe are, and how we try to answer them. Questions from the audience and discussions will be encouraged.

DR. SAURYA DAS
DEPARTMENT OF PHYSICS & ASTRONOMY

Friday...October 12, 2012
12:00 noon to 12:50 p.m.
UHall, B650
