artsPlace is a welcoming, user-friendly space where community can gather to explore, discover, and celebrate the adventure of art and creativity. The artsPlace Gallery is now accepting submissions for the RISE Emerging Artist Program.

The aim of RISE is to cultivate Alberta's emerging artists by pairing an exhibition opportunity with mentorship by artist professionals. Participating artists will build experience in exhibition design, installation, marketing and business skills and professional practice. This program will foster community awareness of contemporary arts and work to prepare emerging artists for a professional career in the arts.

Eligibility:

An emerging artist is defined as: someone who is in the early stage of their career (less than 5 years), has specialized training in their field (not necessarily gained in an academic institution), and who has created a modest independent body of work.

Emerging artists may include students, recently graduated students from a post-secondary institution, or someone who has made a recent career change or decision to prioritize their art practice. The artist cannot be exhibiting work with a commercial gallery, and **MUST** be resident of Alberta for at least a year prior to the application deadline date.

Calls for submission are open to ALL visual art disciplines, and applicants may apply as an individual or as part of a collective of artists.

RISE Emerging Artist Program

RISE Emerging artists will be selected based on the artist's ability to deliver a high-quality body of work with their chosen media. The artwork should display creativity, originality, a knowledge of artistic craft and a skilled use of aesthetics. For the RISE Emerging Artist Program, the artist's artwork should use a style, medium, theme, or subject matter that serves to offer the artsPlace community a new, educational or interesting contemporary arts experience.

The exhibition presentation is approximately four weeks long, allowing the selected RISE Emerging Artist the opportunity to exhibit, sell, and promote their artistic practice. When accepted, the RISE Emerging Artist will be paired with artist mentors who will help guide the artist through preparation and planning for the exhibition, the installation of the exhibition, artistic business and marketing training and the delivery of an artist talk and/or community demonstration. A 3-D Virtual Gallery Tour will be created to share this exhibition online. artsPlace will keep the 3-D tour on their website for 6 months. RISE Emerging Artists may sell the work presented in their exhibition. artsPlace will take a 30% commission on all artwork sold.

In the event that the artsPlace venue is closed to the public due to the pandemic during the exhibition period, the exhibition will still be presented in the artsPlace gallery space and will be shared with the public with 3-D tour technology. If possible, artsPlace will host an in-person opening reception. The decision about whether to host a reception will be made in collaboration with the RISE Emerging Artist and will be based on current Health and Safety Restrictions at the time of the exhibition. The RISE Emerging Artist can choose how to share their artist talk and/or artistic demonstration, whether in-person at an opening reception, or online, using a video.

RISE Emerging Artists receive a \$1500 honorarium.

The deadline for submissions is Thursday November 26 at 11:59pm. Please submit one PDF file containing the written items 1-8. Please also submit 10 individual .jpeg images. Please use the subject line: RISE Emerging Artist Submission.

Hub Gallery

Designed to accommodate a variety of exhibitions, the Hub Gallery is located within the heart of artsPlace. It has five wall sections, coloured yellow in the diagram below, measuring 7.5 m, 3.5 m, 3 m, 1 m, 2 m. These five sections are all white drywalled walls backed by solid wood, ideal for hanging 2D artwork, and capable of displaying 3D work within specified weight limits. The high-traffic area makes it ideal for emerging artists to gain exposure but also **limits** our ability to display certain 3D artwork that might be easily compromised or damaged.
