Opportunity to speak with neuroscientist Dr. Robert Sutherland in advance of PUBLIC Professor Series talk

The brain is the vehicle for all the qualities that define our humanity. It is at the centre of all early development and learning, engagement with education and family life, participation in social interactions, creative work and creating our knowledge of all aspects of the universe.

[Why is the Brain Important?](#) That is the question University of Lethbridge neuroscientist Dr. Robert Sutherland will be answering at his PUBLIC Professor Series talk on Thursday, Mar. 28, 7 p.m. at the Sandman Signature Lodge.

Dr. Rob Sutherland is Professor and Chair of the Department of Neuroscience, Tier 1 Board of Governors Research Chair in Neuroscience, and Director of the Canadian Centre for Behavioural Neuroscience.

WHAT: Media availability for Dr. Robert Sutherland

WHEN: Tuesday, Mar. 26, 10:30 a.m.

WHERE: Science Commons main entrance (Interactive Periodic Table)

As many media members are unable to attend the evening PUBLIC Professor Series talks, this is an opportunity to speak to the researcher about his work.

@ULethbridge

Our University's Blackfoot name is Iniskim, meaning Sacred Buffalo Stone. The University is located in traditional Blackfoot Confederacy territory. We honour the Blackfoot people and their traditional ways of knowing in caring for this land, as well as all Indigenous Peoples who have helped shape and continue to strengthen our University community.
