◇ Summer Institute normally involves two weeks on campus in July and is required in each year of the program, however on-campus duration may vary across courses. Courses designated * include on-campus components. Students should confirm details regarding delivery method and schedule for each course in the timetable/course syllabus.

◇ Counselling Practicum include synchronous seminar components.

◇ The program is designed to allow students to continue working during the program. It is recommended that students be prepared to reduce their hours of work/other obligations if the demands of graduate studies warrant it. The final two terms of program include a practicum placement, impacting ability to work during those terms. Practicum placements may require vulnerable sector check or similar. Cohort schedule is subject to change.
