GFC Academic Appeals & Discipline Committee Report

(July 1, 2026 - June 30, 2027)

The GFC Academic Appeals & Discipline Committee managed **nine** undergraduate student discipline or appeal cases during the 2025/2026 academic year. No graduate student cases were received. The Committee is experiencing an increase in discipline and appeal matters, with **five** cases received between July 1, 2026, and September 21, 2026, for the 2026/2027 academic year.

Of these cases, **three** involved academic discipline matters related to suspension or expulsion recommendations, and **two** were appeals of decisions made under other policies or procedures, such as the Appeal of Application Policy. **Four** cases were redirected because they did not follow the appropriate appeal pathway, and additional information was provided to the student to identify the appropriate appeal mechanism.
