ALBERTA INNOVATES

Are you a grade 11 student interested in health research?

Turn your curiousity into discovery this summer at ULethbridge in the HYRS program!

The High School Youth Research Summer (HYRS) program gives **Grade 11 students** the opportunity to work alongside university researchers on meaningful projects. Participants become part of an active research community while exploring future pathways in science, innovation, and discovery.

Running **July 2 to August 13, 2027**, HYRS is more than a summer experience. It is a chance to collaborate with faculty mentors, connect with industry professionals, and gain hands-on insight into what research looks like beyond the classroom.

Students selected for HYRS receive a **$3,000 stipend**, making this a paid summer opportunity that supports both learning and growth.

- Build real research skills by working on active health-related projects
- Strengthen your confidence in pursuing science and innovation pathways
- Gain experience presenting your work at a public research showcase
- Explore future career possibilities in health research and emerging technologies

Apply by **March 25, 2027** and take your first step into the world of discovery.

Scan the QR code or visit **go.uleth.ca/hyrs** to learn more and apply.
