The Multidisciplinary Fine Arts Program at the University of Lethbridge

The Bachelor of Fine Arts - Multidisciplinary degree enables students to pursue studies in the Departments of Art, Music, Theatre and Dramatic Arts, in combination with courses from other Faculties. This flexibility enables students to combine their studies in unique ways specifically suited to their needs and career goals.

Students develop their own program by choosing one major area of concentration in art, drama, or music, while taking a selection of courses in each of the other two. Because of the individual nature of this degree, students will find additional opportunities for enrichment and involvement in the areas they choose to emphasize.

For further career information and possible job titles, please see the 'what can I do with a Major in...' document for your major area of concentration.
