

Lethbridge Number Theory and Combinatorics Seminar

Monday — October 28, 2013

Room: B660

Time: 12:00 to 12:50 p.m.

Dave Morris
(University of Lethbridge)

What is a Coxeter group?

Abstract: Coxeter groups arise in a wide variety of areas, so every mathematician should know some basic facts about them, including their connection to “Dynkin diagrams.” Proofs about these “groups generated by reflections” mainly use group theory, geometry, and combinatorics.

EVERYONE IS WELCOME!
