This is a planning guide and not a graduation check or guarantee of course offerings. You should have a program check done in your final year of studies. Students are responsible for the accuracy of their own programs. The guide should be used in conjunction with the University of Lethbridge Calendar, which is the final authority on all questions regarding program requirements and academic regulations. Contact an Academic Advisor in the Faculty of Arts and Science for advising information.

## **Bachelor of Science - Mathematics**

Calendar Year - 2014/2015

lajor Requirements (18 courses)	Other Courses (minin	num 22 courses)
Computer Science 1620 - Fundamentals of Programming I	1	12
Computer Science 2620 - Fundamentals of Programming II	9	19
Mathematics 1410 - Elementary Linear Algebra	2	13
Mathematics 1560 - Calculus I	3	14
Mathematics 2000 - Mathematical Concepts		
Mathematics 2560 - Calculus II	4	15
Mathematics 2570 - Calculus III Mathematics 2580 - Calculus IV	r	10
Mathematics 2300 - Calculus IV  Mathematics 3400 - Group and Ring Theory	5	16
Mathematics 3410 - Linear Algebra	6	17
Mathematics 3500 - Analysis I		
Statistics 1770 - Introduction to Probability and Statistics	7	18
Statistics 3500 - Mathematical Probability	8.	19
hree additional courses (9.0 credit hours) in Mathematics or Statistics at	t	
e 3000/4000 level	9	
1 3	10	21
2	11	

## **Notes**

<sup>1</sup>One of the additional 3000/4000-level courses may be replaced by a course from the following list:

Computer Science 3630 - Theoretical Foundations of Computing Physics 3200 - Mechanics

Students who intend to take Physics 3200 as a course contributing to the Mathematics major should carefully plan their program to include the required prerequisites.

It is strongly recommended that a student attain a grade of 'C' or higher in any course used to satisfy prerequisites for courses in Computer Science, Mathematics, and Statistics.

# Sample Sequencing Plan

Shown below is a sample sequence of courses for your degree. If you follow this plan, you should be able to graduate in four years, provided you complete five courses per semester. This is just one example of how you could complete your major and degree requirements; you may find that a different sequence works as well as this one.

Year 1, Fall	Year 1, Spring
Mathematics 1410	Mathematics 2000
Mathematics 1560	Mathematics 2560
GLER course	GLER course
GLER course	GLER course
GLER course	GLER course

#### **Terms Used**

GLER course: A course that could count toward the General Liberal Education Requirement. You may use courses in your major towards this 12-course requirement. See the 2014/2015 University of Lethbridge Calendar, Part 4 - Academic Regulations (p. 88) for complete information.

The Faculty of Arts and Science offers Liberal Education 1000 and 2000, specifically designed to introduce first-year students to the wide scope of human knowledge and teach essential university success skills, critical thinking, and integrative thinking (see the 2014/2015 University of Lethbridge Calendar, Part 14 - Courses, p. 315). LBED 1000 and 2000 may be used toward satisfying the GLER.

Elective: A course that you may choose freely from all those available and applicable to your program. Use courses inside or outside your major, bearing in mind any restrictions that may apply (e.g., a maximum of 24 courses from any one discipline).

Semester of offering may vary.
