Name: _____

Post-Diploma Bachelor of Management International Management

International management is the practice of managing business, not-for-profit, governmental, or other entity's operations across countries. International management professionals are familiar with the culture, business practices, economic and political environment of countries in which multinational firms and/or other organizations operate. International management majors also draw from fields such as history, geography, political science, psychology, economics and sociology. This will allow you to enhance the skills needed to meet the challenges of doing business in an organization that faces different international pressures or that operates globally.
