Global Business

Global Business is the practice of managing business, not-for-profit, governmental, or other entity's operations across countries. Global Business professionals are familiar with the culture, business practices, economic and political environment of countries in which multinational firms and/or other organizations operate. Global Business majors also draw from fields such as history, geography, political science, psychology, economics and sociology. This will allow you to enhance the skills needed to meet the challenges of doing business in an organization that faces different international pressures or that operates globally.
